WHAT DO YOU HAVE TO LOSE?

THE NATIONAL SHERIFFS' ASSOCIATION
IN COOPERATION WITH
YOUR LOCAL LAW ENFORCEMENT AGENCY

If you are the victim of a burglary, it is important that you know the serial numbers of the items stolen. Without the positive identification made possible by a serial number — or a unique number which you may engrave or mark on your property — you may not be able to prove you are the rightful owner if the item is recovered from the thief. Recovered property that cannot be positively identified as being stolen cannot be used as evidence against the thief.

Take a few minutes and record the description, serial numbers and value of those items which are most likely to be stolen. Many of them are listed for you on this form. If you have valuable jewelry, silver, antiques or art objects, take color photographs and note any marks, blemishes or features that make it uniquely identifiable. Keep your property record form and photographs with your insurance papers or in another safe place.

After you complete your inventory, you will realize how much you have to lose in a burglary.
