

2019 Cherokee County SOTCH Report

The 2018 Community Health Assessment priority areas are:

- **Cancer Control and Prevention**
- **Chronic Disease Control and Prevention**
- **Access to Healthcare**

The following SOTCH Scorecard was created and submitted **May 26th, 2021** in order to meet the requirements for the **2019 Cherokee County State of the County Health Report**.

Clear Impact Scorecard™ is a strategy and performance management software that is accessible through a web browser and designed to support collaboration both inside and outside organizations. WNC Healthy Impact is using Clear Impact Scorecard™ to support the development of electronic CHIPs, SOTCH Reports and Hospital Implementation Strategy scorecards in communities across the region.

Scorecard helps communities organize their community health improvement efforts:

- Develop and communicate shared vision
- Define clear measures of progress
- Share data internally or with partners
- Simplify the way you collect, monitor and report data on your results

The following resources were used/reviewed in order to complete the CHIP:
