INDEPENDENT AUDITORS' REPORT

Board of Directors
Cherokee County Tourism Development Authority
Murphy, North Carolina

Report on the Financial Statements

We have audited the accompanying financial statements of the Cherokee County Tourism Development Authority, a component unit of Cherokee County, as of and for the year ended June 30, 2015, and the related notes to the financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these basic financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and general fund of the Authority as of June 30, 2015, and the respective changes in financial position, and where appropriate, thereof and the respective budgetary comparison for the General Fund for the year ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis on pages 6-10 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted principally of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management's Discussion and Analysis

Cherokee County Tourism Development Authority

Management's Discussion and Analysis

June 30, 2015

As management of the Cherokee County Tourism Development Authority, we offer readers of the Cherokee County Tourism Development Authority's financial statements this narrative overview and analysis of the financial activities of the Cherokee County Tourism Development Authority for the fiscal year ended June 30, 2015. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the Authority's financial statements, which follow this narrative.

Financial Highlights

- The assets and deferred outflows of resources of the Authority exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by \$215,081 (net position). Of this amount, \$154,568 (unrestricted net position) or 71.87% percent may be used to meet the Authority's ongoing obligations.
- The Authority's total net position increased by \$52,212.
- At the close of the current fiscal year, the Authority's governmental fund reported an ending fund balance of \$215,081 a change of \$52,212 in fund balance. Of this amount, \$148,568 (unassigned fund balance) or 69.08% percent is *available for spending* at the Authority's discretion.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements. Since the Authority is engaged in a single governmental program, the fund financial statements and the government-wide statements are combined using a columnar format that reconciles the individual fund financial data in a separate column on the face of the financial statements. The financial statements also include notes that explain some of the information and provide more detailed data.

Government-wide financial statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the Authority's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the Authority's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial condition of the Authority is improving or deteriorating.

The *statement of activities* presents information showing how the Authority's net position changed during the most recent fiscal year. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

Fund financial statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Authority, like all other governmental entities in North Carolina, uses fund accounting to ensure and reflect compliance (or non-compliance) with finance-related legal requirements, such as the General Statutes or the Authority's budget ordinance. All of the funds of Cherokee County Tourism Development Authority are considered to be one category: governmental funds.

Governmental funds. All of the Authority's services are reported in a governmental fund, the General Fund, which focuses on how money flows into and out of the fund and the balance left at year-end that is available for spending. The fund is reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial* assets that can be readily converted to cash. The governmental fund statements provide a *short-term* view of Authority's general governmental operations and the basic services it provides. Governmental financial information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Authority's programs. As noted above, the fund financials and the government-wide financials are combined with a reconciling adjustment column.

The combined fund and government-wide financial statements can be found on pages 12 - 14 of this report.

The Cherokee County Tourism Development Authority adopts an annual budget for its General Fund, as required by the General Statutes. The budget is a legally adopted document that incorporates input from the citizens of the Authority, the management of the Authority, and the decisions of the Board about which services to provide and how to pay for them. It also authorizes the Authority to obtain funds from identified sources to finance these current period activities. The budgetary statement provided for the General Fund demonstrates how well the Authority complied with the budget ordinance and whether or not the Authority succeeded in providing the services as planned when the budget was adopted. The budgetary comparison statement uses the budgetary basis of accounting and is presented using the same format, language, and classifications as the legal budget document. The statement shows four columns: 1) the original budget as adopted by the board; 2) the final budget as amended by the board; 3) the actual resources, charges to appropriations, and ending balances in the General Fund; and 4) the difference or variance between the final budget and the actual resources and charges.

Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the combined statements. The notes can be found on pages 15-20 of this report.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial condition. The assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$215,081 as of June 30, 2015. A portion of the Authority's net position \$60,513 (28.13 %) represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$154,568 (71.87%) is unrestricted, the part of net position that can be used to finance day-to-day operations.

Figure 1

The Authority's Net Position

	<u>2015</u>	<u>2014</u>	<u>Total Percentage Change</u>
Assets			
Current and other assets	\$ 218,695	\$ 170,940	27.94%
Total assets and deferred outflows of resources	<u>218,695</u>	<u>170,940</u>	27.94%
Liabilities			
Current liabilities	<u>3,614</u>	<u>8,071</u>	-55.22%
Total liabilities and deferred inflows inflows of resources	<u>3,614</u>	<u>8,071</u>	-55.22%
Net position			
Restricted			
Stabilization by state statute	60,513	48,907	23.73%
Unrestricted	<u>154,568</u>	<u>113,962</u>	35.63%
Total net position	<u>\$ 215,081</u>	<u>\$ 162,869</u>	32.06%

The Authority's net position increased by \$52,212 or 32.06%. The key element of this increase was the 37.46% increase in occupancy tax revenues.

Net position, ending	<u><u>\$ 215,081</u></u>	<u><u>\$ 162,869</u></u>	32.06%

Financial Analysis of the Authority's Funds

As noted earlier, the Cherokee County Tourism Development Authority uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the Cherokee County Tourism Development Authority's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing the Authority's financing requirements.

At the end of the current fiscal year, the Authority's fund balance available was \$154,568, while total fund balance reached \$215,081. The Authority currently has an available fund balance of 71.00% of general fund expenditures, while total fund balance represents 102.08% of the same amount.

General Fund Budgetary Highlights

During the fiscal year, the Authority revised the budget. Generally, budget amendments fall into one of three categories: 1) amendments made to adjust the estimates that are used to prepare the original budget ordinance once exact information is available; 2) amendments made to recognize new funding amounts from external sources, and 3) increases in appropriations that become necessary to maintain services.

There were several reasons the Authority revised its budget throughout the year. As more current information became available, the Authority amended the budget to shift allocations within departments however overall expenditures remained the same.

Capital Assets and Debt Administration

Capital Assets. The Authority does not have any capital assets.

Long-term debt. The Authority does not have any long-term debt.

Economic Factors and Next Year's Budget

The following key economic indicator reflects the growth and prosperity of the Authority.

The growth of Cherokee County has been stagnant. However, with the future opening of the Harrah's Casino we anticipate a positive economic impact for our Authority and the occupancy tax revenues it collects.

Budget Highlights for the Fiscal Year Ending June 30, 2016

The anticipated increase in occupancy tax revenue was reflected as an 18% increase in the adopted budget. The Authority did appropriate \$6,000 in fund balance for the fiscal year 2016 budget. To alleviate any deficit in revenues the Authority continues to monitor strict spending policies. The board will decrease expenses by 6%. Advertising and event dollars will be carefully allocated to provide the greatest impact. A stronger emphasis on web design will appeal to the increasing population of tourists who research their destinations online. Management believes the expected future growth will generate enough revenue to support the Authority's operations.

Requests for Information

This financial report is designed to provide a general overview of the Authority's finances for all those with an interest in the Authority's finances and to demonstrate the Authority's accountability for the money it receives. If you have any questions about this report or need additional information contact the Candy R. Anderson, CPA, Finance Officer, 75 Peachtree Street, Suite 211, Murphy, NC 28906.

Cherokee County Tourism Development Authority

Notes to the Financial Statements

For the Year Ended June 30, 2015

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Cherokee County Tourism Development Authority conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant accounting policies:

A. Reporting Entity

The Cherokee County Tourism Development Authority is a component unit of Cherokee County. The Authority was created to promote activities and programs, which encourage travel and tourism to the area, is a public authority under the North Carolina General Statutes and is governed by a 7-member appointed board.

The Authority receives room occupancy taxes which are levied on gross receipts derived from the rental of any room, lodging, or similar accommodation furnished by a hotel, motel, or similar establishment within Cherokee County, which is subject to the 3 percent tax authorized by the State of North Carolina under General Statute 105-164.4(3). The occupancy taxes are levied and collected by the Cherokee County Finance Department and remitted to the Authority.

There is an additional levy of one percent of gross receipts for establishments within Cherokee County which was authorized by the Cherokee County Board of Commissioners under North Carolina Session Law 2009-445, Section 228 and House Bill 2783. These occupancy taxes are collected by the Cherokee County Finance Department and remitted to the Authority.

The accompanying financial statements present the financial position of the Authority. The Authority has no component units.

Cherokee County Board of Commissioners are responsible for appointing the members of the Authority's board. Cherokee County levies the occupancy tax, which is the major source of Authority revenues. Therefore, the Authority is considered a discretely presented component unit of the County and is presented in the County's government-wide financial statements in a separate column.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on the financial activities of the Authority. The Statement of Activities demonstrates the degree to which direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific program. *Program revenues* include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Investment earnings and other items not properly included among the program revenues are reported instead as *general revenues*.

Since the Authority is engaged in a single governmental program, the fund financial statements and the government-wide statements are combined using a columnar format that reconciles the individual line items of fund financial data to government-wide data in a separate column on the face of the financial statements.

C. Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as soon as all the eligibility requirements imposed by the provider have been met.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**C. Measurement Focus and Basis of Accounting**

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. All revenues are susceptible to accrual. Expenditures are recorded when the related fund liability is incurred.

The General Fund is the operating fund of the Authority and is used to account for all financial resources.

D. Budgetary Data

The Authority's budgets are adopted as required by the North Carolina General Statutes. An annual budget is adopted for the General Fund. All annual appropriations lapse at the fiscal year-end. All budgets are prepared using the modified accrual basis of accounting. Expenditures may not legally exceed appropriations at the object level for all annually budgeted funds and at the project level for the multi-year funds. All amendments must be approved by the governing board and the Board must adopt an interim budget that covers that time until the annual ordinance can be adopted.

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Fund Equity**1. Deposits and Investments**

The cash resources of the Authority include a checking account held by the Authority for operating needs.

All deposits of the Authority are made in board-designated official depositories and are secured as required by State law [G.S. 159-31]. The Authority may designate an official depository, any bank or savings association whose principal office is located in North Carolina. Also, the Authority may establish time deposit accounts such as NOW and SuperNOW accounts, money market accounts, and certificates of deposit.

Investments with remaining maturities at the time of purchase of one year or less are stated at amortized cost which approximates fair value. Investments with a maturity of more than one year at acquisition and non-money market investments are carried at fair value as determined by quoted market prices.

All cash and investments are essentially demand deposits and are considered cash and cash equivalents. The Authority considers all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash and cash equivalents.

2. Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. The Authority defines capital assets as assets with an initial, individual cost of more than \$5,000. Donated capital assets are recorded at estimated fair market value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Furniture and fixtures, equipment, and vehicles are depreciated using the straight-line method over the following estimated useful lives:

Furniture and Fixtures	7 years
Equipment	5 years
Vehicles	5 years

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**3. Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *Deferred Outflows of Resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The Authority has no items that meet this criterion. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *Deferred Inflows of Resources*, represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The Authority has no items that meet this criterion.

4. Net Position/Fund Balances**Net Position**

Net position in government-wide financial statements are classified as net investment in capital assets, restricted, and unrestricted. Restricted net position represents constraints on resources that are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through state statute.

Fund Balances

In the fund financial data column of the combined fund financial statements and government-wide statements, fund balance is composed of five classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent.

The governmental fund types classify fund balances as follows:

Nonspendable Fund Balance – This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted Fund Balance – This classification includes amounts that are restricted to specific purposes externally imposed by creditors or imposed by law.

Restricted for Stabilization by State Statute - portion of fund balance that is restricted by State Statute [G.S. 159-8(a)].

Committed Fund Balance – portion of fund balance that can only be used for specific purposes imposed by majority vote by quorum of Cherokee County Tourism development Authority's governing body (highest level of decision-making authority). The governing body can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Assigned fund balance – portion of fund balance that Cherokee County Tourism Development Authority intends to use for specific purposes.

Subsequent year's expenditures - portion of fund balance that is appropriated in the next year's budget that is not already classified as restricted or committed.

Unassigned Fund Balance - portion of the fund balance that has not been restricted, committed, or assigned to specific purposes.

Fund Balances. For purposes of fund balance classification expenditures are to be spent from restricted fund balance first, followed in-order by committed fund balance, assigned fund balance and lastly unassigned fund balance. The Finance Officer has the authority to deviate from this policy if it is in the best interest of the Authority.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**5. Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statement, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS**A. Explanation of adjustments between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position**

When capital assets that are used in governmental activities are purchased, the costs of those assets are reported as expenditures in governmental funds. However, the statement of net position includes those assets among the assets of the Authority as a whole. Since the Authority has no capital assets at this time, there are no adjustments in the current year.

B. Explanation of adjustments between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balance and the Government-wide Statement of Activities

The Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balance includes a reconciliation between changes in fund balance-governmental funds and changes in net position of governmental activities as reported in the Government-wide Statement of Activities. One element of this adjustment is that, in the governmental fund, capital outlays are recorded as expenditures. However in the Statement of Activities, the cost of these assets is allocated over their useful lives and reported as depreciation. The Authority had no capital outlay expenses in the current year so there are no adjustments to be reported.

III. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**A. Significant Violations of Finance-Related Legal and Contractual Provisions****1. Noncompliance with North Carolina General Statutes**

None Noted.

2. Contractual Violations

None Noted.

B. Deficit in Fund Balance or Net Position

None Noted.

C. Excess of Expenditures over Appropriations

None Noted.

IV. DETAILED NOTES ON THE GENERAL FUND**A. Assets****1. Deposits**

The deposits of the Authority are governed by North Carolina General Statutes which allow depositories to collateralize excess deposits above Federal depository insurance coverage under one of two methods. Under the Dedicated Method, all deposits that exceeding the Federal depository insurance coverage level are collateralized with securities held by the Authority's agents in the Authority's name. Under the Pooling Method, which is a collateral pool, all uninsured deposits are collateralized with securities held by the State Treasurer's agent in the name of the State Treasurer. Since the State Treasurer is acting in a fiduciary capacity for the Authority, these deposits are considered to be held by the Authority's agents in their name. The amount of the pledged collateral is based on an approved averaging method for non-interest bearing deposits and the actual current balance for interest-bearing deposits. Depositories using the Pooling Method report to the State Treasurer the adequacy of their pooled collateral covering uninsured deposits.

The State Treasurer does not confirm this information with the Authority or with the escrow agent. Because of the inability to measure the exact amounts of collateral pledged for the Authority under the Pooling Method, the potential exists for under collateralization. This risk may increase in periods of high cash flow. However, the State Treasurer of North Carolina enforces strict standards of financial stability for each depository that collateralizes public deposits under the Pooling Method. The Authority does not have policies regarding custodial credit risk for deposits, but relies on the State Treasurer to enforce standards of minimum capitalization for all pooling method financial institutions and to monitor them for compliance. The Authority complies with the provisions of G.S. 159-31 when designating official depositories and verifying that deposits are properly secured.

At June 30, 2015, the Authority's deposits had a carrying amount of \$158,182 and a bank balance of \$163,429. All of the bank balance was fully covered by federal depository insurance.

2. Receivables

Receivables at the government wide level at June 30, 2015, were as follows:

	<u>Accounts</u>	<u>Total</u>
Governmental Activities:		
General	\$ 60,513	\$ 60,513
Total governmental activities	<u>\$ 60,513</u>	<u>\$ 60,513</u>

3. Capital Assets

The Authority has no capital assets. When meeting space or equipment is needed for their activities, they use the assets of either Cherokee County or the Cherokee County Chamber of Commerce.

B. Liabilities**1. Payables**

Payables at the government-wide level at June 30, 2015, were as follows:

	<u>Vendors</u>	<u>Other</u>	<u>Total</u>

C. Fund Balance

The following schedule provides management and citizens with information on the portion of the General Fund balance that is available for appropriation:

Total Fund Balance - General Fund	\$ 215,081
Less:	
Stabilization by State Statute	60,513
Appropriated Fund Balance in 2016 Budget	6,000
Remaining Fund Balance	148,568

V. RISK MANAGEMENT

The Authority is exposed to various risks of loss related to torts: theft of; damage to; and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Settled claims have not exceeded purchased insurance coverage in any of the past three fiscal years.

The Authority protects itself from potential loss through the County's purchase of insurance from commercial insurance providers for general liability, automobile liability, property loss and public officials' liability. The County participates in two self-funded risk financing pools administered by the North Carolina Association of County Commissioners. Through these pools, the County obtains property coverage equal to replacement cost values of owned property subject to a limit of \$51,973,770 million for any one occurrence, general, auto, professional, and employment practices liability coverage of \$2 million per occurrence, auto physical damage coverage for owned autos at actual cash value, crime coverage of \$250,000 per occurrence, worker's compensation coverage up to the statutory limits. The pools are audited annually by certified public accountants, and the audited financial statements are available to the County upon request. Two of the pools are reinsured through a multi-state public entity captive for single occurrence losses in excess of \$500,000 up to a \$2 million limit for liability coverage, and single occurrence losses in excess of \$750,000 for workers' compensation. Through the captive, the Liability and Property Pool is reinsured for \$2,000,000 annual aggregate losses in excess of \$250,000 per occurrence for property, auto physical damage, and crime coverage, with additional limited of \$498 million purchased through a group of commercial carriers through the multi-state public entity captive.

In accordance with G.S. 159-29, The County's employees that have access to \$100 or more at any given time of the County's funds are required to be performance bonded through a commercial surety bond. The Finance Officer was bonded as of November 13, 2014 for the fiscal year ended June 30, 2015 for \$50,000.

VI. SUBSEQUENT EVENTS

The Authority has evaluated subsequent events through August 17, 2015, in connection with the preparation of these financial statements which is the date the financial statements were available to be issued.
